Release Notes

May 2023 Release

Table of Contents

Show 'Due In' Details on Search & Browse Pages

OrderWise Ref:	62170
Menu Option:	Admin | Settings | Search & Browse | Results Display [tab]
	• Show Variant Due In
Status:	Enhancement
Platform:	Trade Portal & Layout Editor
Licensed Feature:	No
Detail:	With the above setting enabled and providing the listing is not one product with many variants and there are due in dates available, 'Due In' stock details will display on the search and browse pages.

Include Expiry Dates in Stock Export

OrderWise Ref:	61927 & 61926
Menu Option:	OrderWise | System | eCommerce | Web Shop | Web Shops | [Add/Edit] | Stock [tab]
	• Include expiry dates
Status:	Enhancement
Licensed Feature:	Yes (Web Shop Integration)
Detail:	Enabling the above OrderWise setting will include the oldest expiry date of variants in the XML when running the Stock sync in the eCommerce module.

Quantity Calculator Module

OrderWise Ref:	61597
Menu Option:	Admin | Configuration | Translations | Quantity Calculator [tab]
	• Area Quantity Calculator
	Admin | Modules | Quantity Calculator
	Admin | Modules | Quantity Calculator | [Settings]
	• Area Pack SizeS Variant Numerical Analysis Field
	Layout Editor | Available Layouts | Product Pages | Product Page | [Add Product Attribute]
	• Quantity Calculator
Status:	New Development
Platform:	Trade Portal & Layout Editor
Licensed Feature:	Yes (Quantity Calculator)
Detail:	If a variant has the 'Area Pack Size Variant Numerical Analysis Field' set up and a 'Quantity Calculator' block has been added to the product page, a Quantity Calculator section will appear on the product page on the site. The area or length/width can be entered to determine what pack quantity would be needed for a certain area. The wording of the Quantity Calculator section can be controlled using the available translations.

Queue Email Sending

OrderWise Ref:	49385
Menu Option:	Admin | Design | Emails | Schedule [tab]

- Interval Between Emails In Milliseconds

Admin | Utilities | View Email Logs

Status:	Enhancement
Platform:	Trade Portal & Layout Editor
Licensed Feature:	No
Detail:	All emails that are sent from Online Store are queued and sent on a schedule. The above setting has been added to control the minimum time interval between emails. The default is set to 500 milliseconds but can be left blank to have no delay. In addition, a 'Date Scheduled' column has been added to the 'View Email Logs' page, which represents when an email was added to the queue.
