### Show Admin Last Login in Admin Grid

OrderWise Ref: 61918  
 Menu Option: Admin | Configuration | Administrators  
 Status: Enhancement  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: No  
 Detail: A 'Last Login' column has been added into the Administrators page which shows the date and time in which the Admin User last logged in. Please note, the time stamp will not be updated when the 'act as' functionality is used.

### Support HTML Category Descriptions

OrderWise Ref: 62264  
 Menu Option: N/A  
 Status: Enhancement  
 Platform: Layout Editor  
 Licensed Feature: Yes (Advanced Layout Editor)  
 Detail: Category descriptions are exported as HTML to support the HTML editor within OrderWise.

### Import Variant Comments and Special Instructions on Synced Quotes

OrderWise Ref: 61988  
 Menu Option: N/A  
 Status: Enhancement  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: No  
 Detail: Line comments and special instructions added via a quote will be carried across when the quote is processed and turned into an order.

### Added Font Size Settings for Search and Newsletter Sign Up

OrderWise Ref: 62016  
 Menu Option: Admin | Design | My Themes | [Edit Theme] | [Available Layouts] | Header (Mobile) | [Add Block]
 

- [Mobile Icon Block] | [Settings] | Menu Styling [tab] | Reveal Search Font Size
- Search Styling [tab] | Search Bar Font Size
- [Search] | [Settings] | Content Styling [tab] | Font Size

 Admin | Design | My Themes | [Edit Theme] | [Add Block]
 

- [Newsletter Sign Up] | [Settings] | Content Styling [tab] | Input Box Font Size

 Status: New Development  
 Platform: Layout Editor  
 Licensed Feature: Yes (Advanced Layout Editor)  
 Detail: Using the above settings, the font sizes can be overridden for the Search and Newsletter Sign Up fields.

## Stock Levels Shown for POA Products

OrderWise Ref: 61814  
Menu Option: Admin | Settings | [Products & Categories] | POA [tab]

- Show Stock Levels For POA Products

Status: New Development  
Platform: Trade Portal & Layout Editor  
Licensed Feature: No  
Detail: If the above setting is enabled, the stock level will be shown for POA products on the Product page.

## Prevent Transformable Items Using the Same Available Stock

OrderWise Ref: 61286  
Menu Option: Admin | Configuration | Translations

- basket\_using\_att\_used\_by\_other\_items

Status: Enhancement  
Platform: Trade Portal & Layout Editor  
Licensed Feature: No  
Detail: Customers are prevented from buying transformable items that use the same 'available to transform' stock. For example, an order of 2 packs of 10 cans and 20 single cans cannot be progressed through to the checkout when a total of 20 cans are available in stock.

## Use Variant Level Categories when Splitting Products on a Single Option

OrderWise Ref: 61931  
Menu Option: Admin | Settings | [Search & Browse] | Enhanced Search [tab]

- Split Products Using Option

Status: Enhancement  
Platform: Trade Portal & Layout Editor  
Licensed Feature: No  
Detail: Configuring the above setting enables independent variant level categories to be used when splitting products on a single option, leading to a variant being displayed on the search/browse pages.

## Remove SEO & Marketing from Modules List

OrderWise Ref: 62359  
Menu Option: Admin | Settings | [SEO & Marketing]  
Status: Enhancement  
Platform: Trade Portal & Layout Editor  
Licensed Feature: No  
Detail: The 'SEO & Marketing' module has been removed from the Modules page; however, all settings can still be accessed via the 'Settings' page.
